

Easier, faster, and better Condition Assessment outcomes...

The Turbo Assessment app by Corrigo dramatically streamlines your Condition Assessment survey process. Created by facilities professionals working with Corrigo technology experts and partners, the Turbo Assessment mobile app drives accurate and complete results to enhance your success on the Corrigo platform:

1. Reduce time required to collect location-by-location data, including photos
2. Automate time-consuming process of aggregating data

OPTIMAL BRAND STANDARDS

Ensure properties are consistently clean, in good working order, and delivering an on-brand guest experience.

CONTINUOUS SYSTEMIC IMPROVEMENT

Identify and correct systemic issues that which are driving spend across your real estate portfolio.

SHARPER FINANCIAL MANAGEMENT

Turn location-by-location, asset-by-asset, and system insights into more precise financial forecasting.

FAST, EASY, STANDARDIZED DATA COLLECTION

Intuitive mobile app is easy for facilities personnel and techs to use, speeding data collection.

- Checklists follow the flow of your facilities, so teams avoid hunting for items on list
- Standardized grading system ("Good, Fair, Poor, Replace in FY16, 17, or 18")
- Assessments are validated by GPS time stamp (exact location, time, date)
- If immediate repair need is identified, surveyor can instantly issue work order using Corrigo mobile app on mobile device

THOROUGH, COMPLETE, AND ACCURATE DATA

Standardized checklists guide facilities personnel and techs through each area to ensure ALL areas of survey are performed at ALL locations. No missed sections. No gaps in your data!

A screenshot of the Turbo Assessment app interface. The form is titled "Parking Lot" and includes fields for "Label", "Name*", "UOM" (SQFT), "QTY" (60), "Price" (56.00), "Exterior Total" (3360.00), and "Exterior Comments". There is a "Parking Lot" button and a refresh icon next to the "Exterior Total" field.

- Ensure a complete view of every asset
- Capture photos of every defect and asset
- Up to 600 questions/data collection points

INSIGHT INTO CONDITION OF ALL LOCATIONS AND ASSETS

Turbo Assessment app and your Corrigo system work together to turn valuable data into even more valuable insight.

- Vetted repair/replacement costs are preloaded into the app so estimates are based on market-wide benchmarks, not just your own cost history
- Easily summarize the findings of all surveys by total dollar, capital, and expense
- Standardized, centralized data for easy analysis
- Roll up a concise list of projects by year and by priority
